Thanks. I need to include DCI in our schedule, even if we are not quite issuing DCIs.

Hello Linda,

Yes, we are asking for data for ametoctradin but no human health data, just pollinator data. Below is the table from the FWP.

Table 3: Anticipated Data Needs for the Ametoctradin Registration Review			
Guideline Number ^a	Study Title	Test Material	Estimated Timeframe (Months from receipt of DCI)
Pollinator Data Requirements ^a			
850.3040	Field Testing for Pollinators (Tier 3)	TEP	24
Non-guideline (OECD TG 237)	Honey bee larvae acute toxicity (Tier 1)	TGAI	12
Non-guideline (OECD TG 245)	Honey bee adult chronic oral toxicity (Tier 1)	TGAI	12
Non-guideline (OECD TG 239)	Honey bee larvae chronic toxicity (Tier 1)	TGAI	12
Non-guideline	Semi-field testing for pollinators (tunnel or colony feeding studies) (Tier 2)	TGAI or TEP	24
Non-guideline	Field trial of residues in pollen and nectar (Tier 2)	TEP	24

Hi Quinn

Are you asking for data for Ametoctradin?

Linda Arrington, Branch Chief
Pesticide Re-Evaluation Division

Good Morning Linda,

I hope you are doing well this morning. Today I will be working on responding to Mellonie with some of Amber's comments on the treated seed language in FIFRA mitigation. I will also be working on doing pre-stamp for the ones in the database and sending some labels out to the registrant that got past M drive check. I hope you have a great day.

Best,
Quinn
